Indicative annual energy consumption (kWh/ annum), based upon 2100 Wh daily water energy demand. Actual energy consumption will depend on kW rating and the duration and frequency of use.

Installation Precautions

Installation of these products must be carried out by qualified, competent personnel, in accordance with the instructions provided with the product and all relevant national or local building, wiring and water regulations.

Always read the instruction manual provided with the products before commencing any installation or maintenance work.

Decommissioning and Recycling

When these products reach the end of their serviceable life, if they are not being replaced they should be decommissioned by qualified, competent personnel, and the electrical and water installation made safe.

These products should not be disposed of with general household waste. They should be taken to a recognised WEEE (Waste Electrical and Electronic Equipment) collection facility such as your local civic amenity site for recycling.

Your local authority or retailer will be able to advise you of your nearest recycling facility.
